

We are happy to announce our technical training schedule for the first half of 2025 and continue to offer hands-on training and webinars.

Our basic training sessions not only teach you how to install and operate the printer but also include hands-on practice and troubleshooting for common issues. These comprehensive beginner courses are available at our offices in **France and Germany**.

Our scheduled webinars for the first half of 2025 (duration approximately 2-hours):

- CQL Pro Training Webinar
- Trojan Label Remote Support Best Practices
- QL-900 Refresher
